If a player releases (throws or slams) his stick in frustration onto the table, the opposing player will receive all remaining points that are on the table (regardless of whether any balls were disturbed). Players are expected to exhibit good sportsmanship and to respect the pool tables. It is a privilege to be able to play in the venues that we play.

Timeouts are not to exceed 1 minute and begin at the time the timeout is called.
Handicaps 5.0 and above receive 1 timeout per game.
Handicaps 2.0-4.5 receive 2 timeouts per game. (Yes, "2.0"s only get 2 timeouts in 9 ball)
"2.0"s no longer get sideline coaching.
Each player may change coaches 1 time per match. Once the new coach is named, the player can not switch back to the original coach. Once the coach walks away from the pool table, the timeout is over.

RECYCLING (Ghost Rule): Each team may recycle 4 **times** during the session and no more than once in a given night.
Recycled player can be any skill level (except "7.5") as long as the "26.0" rule is met.
A player may be recycled in back to back matches and can be used at any time and for any reason (including if a team has all 9 players present). The recycling team gets to choose the player to be recycled and does not have to give any advance notice that it may recycle.

Recycling is not permitted in the last 2 weeks of the session.

New players may not be added during the last 3 weeks of the regular session.

If the team match is going very quickly, the 5th match does not have to start until 9:40 PM in the event that 1 of the teams does not have their 5th player present yet. If a player leaves early and does not play, the team of that player loses the right to exercise the 9:40 rule to their benefit.

"Push Shots" following the break ARE permitted. **THEY MUST BE CALLED**

3 consecutive fouls in one game does NOT result in a loss of game.

Only (1) "7.5" can play per team per night.

Projected *Payouts for

Tournament Champions	**$2,300**
Tournament 2nd place	**$1,320**
Division Winner	**$360**
Week 18 Winners ($80 x 6)	**$480**
Random Drawing Winner	**$240**
Total Cash Payouts	**$4,700**

*** Payouts are projected under the assumption that all projected revenue was collected**
Any shortfall will reduce (dollar for dollar) the amounts paid out to the Tourney Champions

Any team that does not make the postseason, but also does not forfeit any individual matches will have their team entered into a random drawing with the other "non postseason teams" from this division for a chance to win $ **240** in credits for the following session dues.

*****In week 18, the winning team of each match will receive $80**
(If 25-25 tie, each team will receive $40). Week 18 IS a "pay to play" week like all other regular session matches

The teams that play in the Wildcard round of playoffs (#3, 4, 5, 6 Seeds) do not have to pay for those matches. Teams playing in Semifinals and Finals do pay for those matches since it will also be included as Week 1 and Week 2 of the new session

Players must play at least **8** matches to be eligible for individual awards for this session/division.

Players must play at least **6** matches to qualify for postseason for this session/division.

Forfeits (for this division) **during the regular session** will be handled as follows…

The team that is forfeiting the individual match will receive a 0-10 loss, but will still be responsible to pay for that match.

The team that is the beneficiary of the forfeit will receive a 7-3 win and will not pay the $8 for that match.

If a team is the beneficiary of a forfeit, their "named player" will still receive credit for a match played in regards to postseason eligibility.

If it is decided that a team is forfeiting too many matches which is creating unfairness within the division, the league office has the right to remove the team and may create a new schedule for the remainder of the session.

In postseason, the beneficiary of a forfeit will receive 10 points. The "forfeiting team" will receive 0 points.

MVPs of their skill level category (2.0-3.5, 4.0-5.5, 6.0-7.5) will receive a plaque.
Qualification S/L is where you played a majority of your matches, lower if tied
Example: A player played 4 matches as a 5.5 and 4 matches as a 6.0. They would be qualified for the 4.0-5.5 category, not the 6.0-7.5 category.

MVP Rules - 8 **total matches** required to win MVP (This division,this session)

The player with the best "AVG PPM" wins the MVP. It will be calculated to as many decimals as needed. If 2 players have the EXACT same "AVG PPM", the player who played the most matches wins. In the unlikely event that 2 players have the exact same "AVG PPM" and also have played the same amount of matches, the player with the better match record will win. The next tiebreaker will be strength of schedule (determined by average HC of opponents).

Explanation of "AVG PPM"-- "AVG PPM" is the average match points scored per match played.
It is calculated by taking the "total amount of points scored " / " total matches played"
Example…… Jordan Chickenfinger played 12 matches and his "Points For" was 71.
his "AVG PPM" would be 71 / 12 = 5.92.
