

PACS new division starting Sunday, August 26.

- \* ~~\$150~~ **\$ 300** Paid to Captains of new teams (this session, this division)
  - Match start times will be 5:00 PM
  - \$ 7/week to play
  - \*\* 80% of revenue (including \$300 incentive above) collected from this division (this session) will be paid back to the players from this division. (For example, a division with 6 teams would have **\$3024** paid back to them at the end of the session.) That's not a misprint!!!
  - Plaques for MVPs of their skill level categories
  - Division will be either 8 or 9 Ball, whichever there is more interest in. If 8 Ball, shots must be called. If 9 ball, "slop shots" count and we will use a point system so that players are racing to a number of points (1 point per ball, 2 points for the 9) instead of a number of games.
  - Super super easy method of scorekeeping (we don't concern ourselves with subjective stats such as safes).
  - No annual membership fees
  - No paypal fees
  - ~~23~~ ~~25~~ "26.0" rule is in effect ( We believe friends should remain friends and continue to shoot on their friend's teams...therefore we don't inflate handicaps to force teams to break up).
- 
- \$ 300 will be paid to new captains at the end of the session after all team obligations are met. This money will not be paid if a new team from this division is formed primarily at the detriment of losing a team from another PACS division that plays on Monday, Tuesday, or Thursday.
  - 80% of revenue paid out on the assumption that the teams playing in this division did not lead to the loss of other teams from other divisions (Monday, Tuesday or Thursday). In other words, based on the assumption there was no cannibalization.
