If a player releases (throws or slams) his stick in frustration onto the table, the opposing player will receive all remaining points that are on the table (regardless of whether any balls were disturbed). Players are expected to exhibit good sportsmanship and to respect the pool tables. It is a privilege to be able to play in the venues that we play.

Timeouts are not to exceed 1 minute and begin at the time the timeout is called.

Handicaps 5.0 and above receive 1 timeout per game.

Handicaps 2.0-4.5 receive 2 timeouts per game. (Yes, "2.0"s only get 2 timeouts in 9 ball)

"2.0"s no longer get sideline coaching.

Each player may change coaches 1 time per match. Once the new coach is named, the player can not switch back to the original coach. Once the coach walks away from the pool table, the timeout is over.

RECYCLING (Ghost Rule): Each team may recycle **3 times** during the session and no more than once in a given night.

The recycle rule is not meant for teams to gain an advantage by leaving their "weaker shooters" at home. It is meant as a last resort for teams that can't field a lineup of 5 different shooters in a given night. If a player shows up to the match and then leaves without shooting under the understanding that the team would still have enough shooters, the team has forfeited the right to recycle in place of that shooter (who left early without playing). The recycled player must shoot last. Unless the opposing team chooses the player to be recycled early, the team that is recycling must have all eligible players available for the last match and the opposing team chooses the player

The recycled player can be any skill level as long as they comply with the "26.0" rule.

Recycling is not permitted in the last 2 weeks of the session.

New players may not be added during the last 3 weeks of the regular session.

"Push Shots" following the break ARE permitted.

3 consecutive fouls in one game does NOT result in a loss of game.

Only (1) "7.5" can play per team per night.

Projected *Payouts for

Tournament Champions	\$2,500
Tournament 2nd place	\$1,400
Division Winner	\$400
Week 18 Winners (\$80 x 6)	\$480
Random Drawing Winner	\$200
Total Cash Payouts	\$4,980

*** Payouts are projected under the assumption that all projected revenue was collected
Any shortfall will reduce (dollar for dollar) the amounts paid out to the Tourney Champions**

Any team that does not make the postseason, but also does not forfeit any individual matches will have their team entered into a random drawing with the other "non postseason teams" from this division for a chance to win \$ **200**

*****In week 18, the winning team of each match will receive \$80
(If 25-25 tie, each team will receive \$40). Week 18 IS a "pay to play" week like all
other regular session matches**

**The teams that play in the championship match do not have to pay \$40 for that match
(since it is also included as the first week of the Spring '20 Session)**

Players must play at least **9** matches to be eligible for individual awards for this session/division.

Players must play at least **6** matches to qualify for postseason for this session/division.

Forfeits (for this division) **during the regular session** will be handled as follows...

The team that is forfeiting the individual match will receive a 0-10 loss, but will still be responsible to pay for that match.

The team that is the beneficiary of the forfeit will receive a 7-3 win and will not pay the \$8 for that match.

If a team is the beneficiary of a forfeit, their "named player" will still receive credit for a match played in regards to postseason eligibility.

If it is decided that a team is forfeiting too many matches which is creating unfairness within the division, the league office has the right to remove the team and may create a new schedule for the remainder of the session.

In postseason, the beneficiary of a forfeit will receive 10 points. The "forfeiting team" will receive 0 points.

MVPs of their skill level category (2.0-3.5, 4.0-5.5, 6.0-7.5) will receive a plaque.

Qualification S/L is where you played a majority of your matches, lower if tied

Example: A player played 4 matches as a 5.5 and 4 matches as a 6.0. They would be qualified for the 4.0-5.5 category, not the 6.0-7.5 category.

MVP Rules - 9 **total matches required to win MVP (This division,this session)**

The player with the best "AVG PPM" wins the MVP. It will be calculated to as many decimals as needed. If 2 players have the EXACT same "AVG PPM", the player who played the most matches wins. In the unlikely event that 2 players have the exact same "AVG PPM" and also have played the same amount of matches, the player with the better match record will win. The next tiebreaker will be strength of schedule (determined by average HC of opponents).

Explanation of "AVG PPM"-- "AVG PPM" is the average match points scored per match played.

It is calculated by taking the "total amount of points scored " / " total matches played"

Example..... Johnny Chickenfingers played 12 matches and his "Points For" was 71.

his "AVG PPM" would be $71 / 12 = 5.92$.
