If a player releases (throws or slams) his stick in frustration onto the table, the opposing player will receive all remaining points that are on the table (regardless of whether any balls were disturbed). Players are expected to exhibit good sportsmanship and to respect the pool tables. It is a privilege to be able to play in the venues that we play.

Timeouts are not to exceed 1 minute and begin at the time the timeout is called.

Handicaps 5.0 and above receive 1 timeout per game.

Handicaps 2.0-4.5 receive 2 timeouts per game. (Yes, "2.0"s only get 2 timeouts in 9 ball)

"2.0"s no longer get sideline coaching.

Each player may change coaches 1 time per match. Once the new coach is named, the player can not switch back to the original coach. Once the coach walks away from the pool table, the timeout is over.

RECYCLING (Ghost Rule): Each team may recycle **3 times** during the session and no more than once in a given night.

The recycle rule is not meant for teams to gain an advantage by leaving their "weaker shooters" at home. It is meant as a last resort for teams that can't field a lineup of 5 different shooters in a given night. If a player shows up to the match and then leaves without shooting under the understanding that the team would still have enough shooters, the team has forfeited the right to recycle in place of that shooter (who left early without playing). The recycled player must shoot last. Unless the opposing team chooses the player to be recycled early, the team that is recycling must have all eligible players available for the last match and the opposing team chooses the player

The recycled player can be any skill level as long as they comply with the "26.0" rule.

Recycling is not permitted in the last 2 weeks of the session.

New players may not be added during the last 3 weeks of the regular session.

"Push Shots" following the break ARE permitted.

3 consecutive fouls in one game does NOT result in a loss of game.

Only (1) "7.5" can play per team per night.

Projected *Payouts for

| | |
|-----------------------------|---------|
| Tournament Champions | \$2,000 |
| Tournament 2nd place | \$1,000 |
| Division Winner | \$400 |
| Week 18 Winners (\$70 x 6) | \$420 |

* Payouts are projected under the assumption that all projected revenue was collected
Any shortfall will reduce (dollar for dollar) the amounts paid out to the Tourney Champions

Any team that does not make the postseason, but also does not forfeit any individual matches will have their team entered into a random drawing with the other "non postseason teams" from this division for a chance to win \$ **200**

***In week 18, the winning team of each match will receive \$70
(If 25-25 tie, each team will receive \$35). Week 18 IS a "pay to play" week like all other regular session matches

The teams that play in the championship match do not have to pay \$35 for that match (since it is also included as the first week of the Winter '20 Session)

Players must play at least **6** matches to be eligible for individual awards for this session/division.

Players must play at least **6** matches to qualify for postseason for this session/division.

Forfeits (for this division) **during the regular session** will be handled as follows...

The team that is forfeiting the individual match will receive a 0-10 loss, but will still be responsible to pay for that match.

The team that is the beneficiary of the forfeit will receive a 7-3 win and will not pay the \$7 for that match.

If a team is the beneficiary of a forfeit, their "named player" will still receive credit for a match played in regards to postseason eligibility.

If it is decided that a team is forfeiting too many matches which is creating unfairness within the division, the league office has the right to remove the team and may create a new schedule for the remainder of the session.

In postseason, the beneficiary of a forfeit will receive 10 points. The "forfeiting team" will receive 0 points.

MVPs of their skill level category (2.0-3.5, 4.0-5.5, 6.0-7.5) will receive a plaque.

Qualification S/L is where you played a majority of your matches, lower if tied

Example: A player played 4 matches as a 5.5 and 4 matches as a 6.0. They would be qualified for the 4.0-5.5 category, not the 6.0-7.5 category.

MVP Rules - 6 total matches required to win MVP (This division, this session)

Best "Points For" - "Points Against" differential will determine the winner. In the event of a tie, tiebreakers are...

- 1) **LEAST** Matches played.
- 2) Average SHOT point differential per match
- 3) Average Skill Level of Opponent (Strength of Schedule)

Explanation of "**Average SHOT point differential per match**"

If a "7" plays a "4", the "7" needs 60 shot points to the "4"s 30 shot points. If the "7" gets 60 points to the "4"s 22 points, the shot point differential for the "7" for that match would be +8 since the "4" fell 8 points short of the 30 needed to win the match. If the "4" would get 30 shot points to the "7"s 55 shot points, the shot point differential for the "7" for that match would be -5 since they fell 5 points short of getting the 60 shot points needed to win the match.
